

Jean Suh

Software Engineer

33-43 14th Street
Queens, NY 11106
(646) 330-9956
scenario.529@gmail.com

EXPERIENCE

Starbucks, New York, NY — Barista

December 2018 - April 2020

Hunter College, New York, NY — IT Support Assistant

June 2023 - Current

Used Webedit content management system to update the college website with HTML and CSS.

EDUCATION

Hunter College, New York, NY — B.A. in Computer Science

May 2018 - August 2023

Extensively studied C++ and Python.

Relevant courses include Data Structures and Algorithms, Intro to APIs, Practical Web Development, UI/UX Design and Operating Systems.

Certification

Front-End Web Development, — General Assembly

February 2022

Gained hands-on experience with industry-standard tools — HTML5, CSS3, JavaScript (ES6) — to build rich, interactive websites. Explored topics like responsive design, APIs, and version control with Git and GitHub.

PROJECTS

IGN Mock Website <https://jeansuh.github.io/IGN-mock-website/>

- Full stack Javascript single page application.

Portfolio Website <https://jeansuh.github.io/jean-suh-website/>

- Fully responsive portfolio website. Used React and React Router

SafetyFirst <https://safetyfirstnycdev.herokuapp.com/>

- Full stack website deployed through Django and Heroku. Worked in Agile with a group of five as the sole front-end developer.
